30. How to Setup ebankbooks SEO Network Tool

SEO stands for Search Engine Optimisation and consists of steps designed to make your site, products and services easier for your customers to find online. This is done by understanding the search requirements of internet Search Engines (such as Google, Firefox, Yahoo, etc) and matching your marketing strategy to those requirements.

ebankbooks is giving you FREE opportunity to markedly improve your SEO by leveraging off its own. Simply follow the steps below to fill in your web site and social media links, enter industry and product keywords and enable your sales products to be used for SEO and ebankbooks will use its innovative new software modules to do the rest.

Step 1. To begin, go to 'Settings' menu and click on 'Company Details'.

Click here to access your
Company Information

In the form below fill in your company name and the web site. This information will be used to set up your SEO.

Company Details

Note:

- ✓ Enable Javascript
- ✓ Enable pop ups for ebankbooks site.

Technology description

ebankbooks is a sexy browser-based JavaScript application so it should be able to run on all platforms using the supported browsers.

AJAX technology is designed for mobility technology because rest state means only communicate when required. This minimizes bandwidth requires (costs) and increases reliability because software connections survive drop outs.

Database backend is a SQL database that allows for multiple concurrent users and multiple user client sessions. Each account has their own database which means user data is isolated from other business accounts.

Client databases are backed up daily

How cool is it when you can use everything from your sexy smart phone through to your brute desk top pc.

Mobility compliance

- ✓ touch and gesture compliance to apple iPad standard.
- ✓ Icons designed and screen functions designed for touch
- ✓ iPad, iPhone,
- ✓ Android tablets and phones
- ✓ Samsung Galaxy III

Operating System

- ✓ Window 7,8, XP and all windows version that support IE9
- ✓ All Apple operating systems: iOS, Mac OS, OSX
